GAY? - TOO MANY "BROTHERS"....*

* More $CAMH BAD SCIENCE: They're always so COCK-sure (pun intended) - which NO REAL SCIENTIST EVER IS: "Bearman and Brückner (2008) argue that studies showing a fraternal birth order effect have used nonrepresentative samples and/or indirect reports on siblings' sexual orientation. Their analysis, focusing on opposite-sex twins, did not find an association "between same-sex attraction and number of older siblings, older brothers, or older sisters".[18]"

Abstract: By 2007, CAMH's Ken Zucker had been widely exposed as a trans-reparatist who claimed to be able to cure gender variant children, while CAMH's Ray Blanchard openly ridiculed transsexual women as being men without penises. The resulting outrage all across the transgender community became so intense that CAMH launched a study to consider the complaints. The study led to stinging indictments of CAMH's gender clinics and made well-reasoned recommendations on how to alleviate the problems. In response, Zucker and Blanchard have if anything intensified their ongoing 'war on transgenders', and are now apparently engaging in a war within CAMH to sidestep the recommendations of the study.
